HISTORICAL FACTS ABOUT YOUR TAVERN

THE MOTTO

"Here spend a social hour in harmless mirth and fun. Let Friendship reign, be just and kind and evil speak of none."

HOW IT ALL STARTED - Dec. 15, 1944

About this time last year a devastating snow storm hit the City of Toronto with impact of an atomic bomb. Old No. 4 Release Centre, born but a few tender weeks before, was the focal point of nature's and man's confusion. But somehow the unit was dug out and a semblance of systematic order took hold. Out of all this, an idea hit someone on this Station - something which had never been attempted before. Why not a little entertainment for the staff and discharges at noon-hour? And so, starting on the proverbial shoestring, it has grown from a barren space, a broken-down piano into an institution known as "The Tavern". Its popularity spread by leaps and bounds - so much so that its inventors feared a theatrical Frankenstein grown out of control. But the efforts of Flight Lieutenant Such's workers managed to keep pace with its spreading popularity. During the summer months, this noon-day show moved to the Tavern Green. Not dozens, but literally hundreds of spectators enthusiastically received some of the best talent in the North American continent. The Tavern had really come into its own. Since that time this splendid effort has been maintained during these chilly months, against the background of the lush "Blue Room". Meanwhile, personalities continue to pour through its portals. The Tavern is indeed a credit to all who have worked so hard. Long may it reign!

TODAY'S PROGRAM
